CIRCULAR

TYPE & NUMBER	EMR Circular 217
Date	8 July 2020
Purpose	For information

EMRS documents updated to reflect the Capacity Market Rules changes in response to COVID-19

EMRS, on behalf of <u>Electricity Settlements Company</u> (ESC) would like to advise **Capacity Providers** the EMRS documents have been updated to reflect the <u>Capacity Market (Amendment) (No.2) Rules</u> <u>2020</u> changes in response to the consultation on <u>Capacity Market: proposal to relax the rules</u> <u>temporarily in response to COVID-19</u>.

These changes apply to those of you who can explain how the effects of COVID-19 have caused delays for the following:

- **Unproven DSR CMUs** holding T-1 or T-4 agreements for capacity obligations which begin in Delivery Year 2020/21 are allowed additional time to comply with the Metering Assessment, Metering Test and DSR Test deadlines (up to 17 September 2021 for the Metering Test; up to 31 August 2021 for the DSR Test).
- **Prospective CMUs** are allowed additional time to comply Metering Assessment and Metering Test deadlines up to the Extended Long Stop Date of 30 September 2021. This includes CMUs:
 - **New Build CMUs** holding T-1 agreements for capacity obligations which begin in Delivery Year 2020/21;
 - **Refurbishing CMUs** holding T-1 and T-4 agreements for capacity obligations which begin in Delivery Year 2020/21; and
 - **New Build CMUs** holding T-4 agreements for capacity obligations which began in Delivery Year 2019/20.

Further details are available in these documents to reflect the changes:

- WP197 Capacity Market Metering Test (Section 3.1)
- G1 Capacity Market Metering (Section 14)

These documents are available on the <u>Working Practice</u> and <u>Guidance</u> webpages. In addition, to support **Capacity Providers**, the <u>EMR Delivery Body</u> have developed a set of guidance notes and FAQs to explain all the changes. This <u>COVID-19 Guidance</u> is available on the EMR Delivery Body <u>website</u>.

Further information?

Full details of the Government response on the <u>Capacity Market consultation response: future</u> improvements, emission limits and coronavirus.
