

CIRCULAR

TYPE & NUMBER EMR Circular 223

Date 16 November 2020

Purpose For Information

Proposal submitted to update data flows to support EMR backing data

EMRS, on behalf of [Low Carbon Contracts Company](#) (LCCC), and the [Electricity Settlements Company](#) (ESC) would like to inform **Suppliers, CfD Generators** and **Capacity Providers** that the MRA Development Board (MDB) at its October meeting agreed the Solution Pre-Assessment related to Electricity Market Reform (EMR) would go out for 30 working day impact assessment. At the MDB December meeting any feedback received will be discussed.

The **DTC Solution Pre-Assessment Form (SPF) 107 – ‘Reporting of Additional EMR Backing Data’** proposes to make amendments to the following data flows:

- [D0362 - CfD Supplier Invoice Backing Data](#)
- [D0363 - CfD Supplier Credit Cover Report](#)
- [D0364 - CM Supplier Invoice Backing Data](#)
- [D0365 - CfD Generator Invoice Backing Data](#)
- [D0366 - CM Capacity Provider Invoice Backing Data](#)

This circular provides full details about the changes included in the **DTC SPF 107 – ‘Reporting of Additional EMR Backing Data’**.

What changes are included in DTC SPF 107 - Reporting of Additional EMR Backing Data?

Full details of the changes proposed can be view via the Solution Pre-Assessment Form submitted and the associated redlined appendices for the five data flows via the MRASCo website in the [DTC SPF 107 – ‘Reporting of Additional EMR Backing Data’](#).

The aim of this proposal is to reduce the validation required for **Suppliers, CfD Generators** and **Capacity Providers** as the backing data within the data flows will align to what is issued. The associated data flows will be structured and named in line with the actual output from the Settlement Systems.

Within the SPF, the implementation to the [Data Transfer Catalogue](#) (DTC) is proposed for the **November 2021 Release**.

Who can respond to the SPF Impact Assessment?

MRA Parties will be responding to the SPF impact assessment. If any **Suppliers, CfD Generators** and **Capacity Providers** that are also MRA Parties wish to respond to this impact assessment can email MRACA@gemserv.com or call on 020 7090 1029 by close of play on 10 December 2020.

CIRCULAR

Next steps

Following the MDB meeting in December 2020, we will provide an update of the outcome from the meeting and how **DTC SPF 107 – 'Reporting of Additional EMR Backing Data'** will be progressed.
