

CIRCULAR

TYPE & NUMBER EMRC225

Date 10 December 2020

Purpose For information

Successful implementation of EMRS changes to support the Stress Event Improvement Programme 2020

EMRS, on behalf of [Electricity Settlements Company](#) (ESC) would like to inform **Capacity Providers** that we have successfully implemented four changes. These changes support the [Stress Event Improvement Programme 2020](#):

- Online submission of Capacity Market Volume Reallocation Notifications (CMVRN) via the EMRS Portal
- Confirmation of receipt for submission of Secure File Transfer Protocol (SFTP) metered data
- Emails to notify rejection of duplicate CMVRN Trade IDs

These improvements support the operational effectiveness for both Capacity Providers, ESC and EMRS particularly if a Capacity Market Stress Event did occur. These changes were progressed from the feedback received from the last Mock Stress Event.

In addition, the below change also relates to Capacity Providers:

- Duplicate Rows in Capacity Payment Late Payment Interest (LPI) Table

This circular confirms which documents we have updated to reflect these changes. Further details on each of the changes is available in [EMRC224 – Update on the EMRS changes for the Stress Event Improvement Programme 2020](#).

What documents have we updated?

This table illustrates the documents we have updated for each of these changes.

Change	Associated Documents
Online submission of Capacity Market Volume Reallocation Notifications via the EMRS Portal	WP48 – Volume Reallocation G4 – EMRS Authorised Contacts G19 – EMRS Web Portal User Guide
Confirmation of receipt for submission of Secure File Transfer Protocol metered data	WP195 – CM & CFD Metered Data WP22 – Applicant & Capacity Provider Registration Form EMR Registration & Amendment Form (Associated Working Practice Documents: WP21 – Supplier Registration, WP22 – Applicant & Capacity Provider Registration & WP31 – Amending EMR Party Details)
Emails to notify rejection of duplicate CMVRN Trade IDs	WP48 – Volume Reallocation

These documents are available on the [Working Practice](#) and [Guidance](#) webpages.

In addition, the [Stress Event Guide](#) now includes content on the online submission of CMVRN via the EMRS Portal. You can locate the Stress Event Guide on the [Electricity Settlement Company](#) website on the [Publications](#) webpage.
