

Historical Data - Capacity Cleared Price Adjusted for UK Consumer Prices Index

Capacity Cleared Price (CCP) is adjusted for UK Consumer Prices Index (CPI) for **T-4 and T-3 Auctions only**.

This must be calculated no later than three months before the commencement of the Delivery Year. UK Consumer Prices Index adjusted Capacity Cleared Price is calculated in pounds per MW and is the price at which Capacity Payments are payable in respect of Capacity Market Units (CMU) for the Delivery Year. This is detailed within the [Electricity Capacity Regulations 2014 \(as amended\)](#).

This document provides the historical Capacity Cleared Price Adjusted for UK Consumer Prices Index from 2019/2020 Delivery Year to the current Delivery Year. The latest Delivery Year will always be available to view on the [Settlement Data for Capacity Providers](#) webpage.

*As stated in the [Final Auction: Results T-4 Capacity Market Auction 2014](#), [Auction Results: T-4 Capacity Market Auction 2015](#), [Auction Results: T-4 Capacity Market Auction 2016](#), [Auction Results: T-4 Capacity Market Auction 2017](#), [Final Auction Results: T-3 2019](#) and [Final Auction Results: T-4 Capacity Market Auction 2020](#) for this table it's been converted from £ per kW to £ per MW.

Historical Data - Capacity Cleared Price Adjusted for UK Consumer Prices Index

** "CPI" means the UK Consumer Prices Index (All Items) published monthly by the Office for National Statistics or, if such index ceases to be published, such other index as may replace it.

*** As stated in the [Electricity Capacity Regulations 2014](#) (as amended) to calculate the price in pounds per MW.
