Purpose For Action

Seeking Feedback on EMR Interfaces

This EMR Circular is seeking feedback from **Suppliers, CfD Generators** and **Capacity Providers** on the straw man data groups and data items we presented at the EMR Interfaces workshop on 8 July 2014.

We discussed what data should be included in reports sent to **Suppliers, CfD Generators** and **Capacity Providers** over the Data Transfer Service (DTS) and/or alternative mechanism as outlined in [EMR Circular 7](#).

What was the focus of the EMR Interfaces Workshop?

The EMR Interfaces workshop focused on two areas:

- To prioritise the automation of the various data flows and notices
 - to receive as DTS flows (or an alternative machine-readable format) so it can be loaded into a system
 - to receive in human-readable (password-protected PDF) format
- A 'straw man' definition of the data items to be included in a new DTS flows for **Suppliers, CfD Generators** and **Capacity Providers**

We've uploaded the material onto the EMR Settlement website, [which is all available here](#), and includes the following:

- Agenda
- Interfaces Workshop slides
- Prioritisation Exercises
- DTS straw man 1 - CfD Supplier invoice backing data
- DTS straw man 2 - CfD Supplier credit cover report
- DTS straw man 3 - CM Supplier invoice backing data
- DTS straw man 4 - CfD Generator invoice backing data
- DTS straw man 5 - Capacity Provider invoice backing data

What feedback are we seeking?

We are seeking feedback from **Suppliers, CfD Generators** and **Capacity Providers** on the following:

- Confirm and validate priorities and preferences for which data flows need to be accompanied by machine-readable data files (through DTS or alternative mechanism), in addition to the human-readable versions

CIRCULAR
