
TYPE & NUMBER EMR Circular 62

Date 13 October 2015

To EMR Circular List

From EMR Settlement Limited

Purpose For Information

New publications available on the EMRS website

This circular informs EMR stakeholders that we've published a number of new Metering related documents for the Capacity Market (CM) and Contracts for Difference (CFD). These are:

- [Guidance documents](#)
 - G1 - Capacity Market Metering
 - G8 - Contracts for Difference Metering
- [Working Practices](#)
 - WP195 - CM & CFD Metered Data
 - WP196 - CM Metering Technical Assurance
 - WP197 - Capacity Market – Metering Test
 - WP198 - EMR Site Testing Volumes and Selection Process

Who should read these publications?

These documents will support **Capacity Providers** and **CFD Generators** to understand metering requirements, metered data and technical assurance processes for CM or CFD.

Questions covered in G1 - Capacity Market Metering guidance:

- What are the allowed types of metering configuration?
- What are the requirements for the different metering configurations?
- What are the single line diagram requirements?
- What are the test facility requirements?
- What are the meter setup requirements?
- What is the Metering Test?

Questions covered in G8 - Contracts for Difference Metering guidance:

- What is the Electrical Schematic Obligation?
- What are the metering requirements for CFD Generators?
- What are the metering requirements for CFD Generators that are Dual Scheme?
- What are the metering requirements for CFD Generators that are Offshore Wind and building the facility in phases?
- What are the metering requirements for CFD Generators operating on a Private Network?

CIRCULAR

- What are the test facility requirements?
- What are the meter setup requirements?

Diagrams are included to illustrate the metering requirements and testing facilities options.

Questions covered in Working Practice 195 - CM and CFD Metered data:

- What is the method and format to submit data to EMRS?
 - For Capacity Providers using the existing Balancing Services or Bespoke Metering Configuration Solutions.
 - For CFD Generators on a Private Network.
- What are the timescales to submit metered data to EMRS?

This working practice provides examples of the various formats for the above submissions.

Questions covered in Working Practice 196 - CM Metering Technical Assurance:

- What is the CM Metering Technical Assurance process?
- What are the timescales associated with a Metering Technical Assurance Audit?
- What is the format of the Metering Technical Assurance Audit?
- What information is required to be submitted for the Audit?

This working practice provides the various notices that will be issued and also provides further details of the stages of the Metering Technical Assurance Audit for each type of Metering configuration.

Questions covered in Working Practice 197 - CM Metering Test:

- What is a CM Metering Test?
- What are the deadlines for completing a CM Metering Test?
- What information do I have to submit to complete a CM Metering Test?
- What is the CM Metering Test process if desk-based or onsite?

The Appendix of this working practice provides the CM Metering Test timetable for the different types of Capacity Market Units (CMUs) and example notices that will be issued in relation to CM Metering Tests.

Questions covered in Working Practice 198 - EMR Site Testing Volumes and Selection Process:

- What is the method used to select sites for the Metering Assurance process for both CM and CFD?

As part of Electricity Market Reform (EMR) there will be a metering assurance process to test a percentage of the sites awarded either a CFD Contract or a Capacity Agreement in the CM. A number of these tests will be conducted before the contract start dates and others during the contract period.

Where can I locate the acronyms or definitions used in these publications?

There is an acronyms and definitions document located on the on the right hand side of the [working practice](#) and [guidance](#) pages of the EMRS website, under useful links.

CIRCULAR

When will related Working Practices or Guidance be published?

We'll be publishing further working practice documents over the coming weeks to support **Capacity Providers** and **CFD Generators**. This is a list of the document that will be published shortly:

- [Working Practices](#)
 - WP002 – CFD Private Network Meter Commissioning, Proving and Calibration Tests
 - WP003 - EMR Trading Disputes and Non-compliances
 - WP024 - CFD Settlement Required Information
 - WP032 - CFD Further Conditions Precedent (Metering)
 - WP033 - CFD Electrical Schematic Obligation
 - WP133 - EMR Metering Disputes Resolution Procedure
 - WP134 - CFD Metering Technical Assurance

Once these documents are published we'll send a [circular](#) to inform you.

Where can I get more information?

Find out more about our role in EMR on the [EMRS website](#). If you have any further questions about this circular, please email contact@emrsettlement.co.uk.
