From EMR Settlement Ltd

Purpose For information

Register now! EMR webinar: an overview of metering assurance in the Capacity Market

To participate in the Capacity Market all **Capacity Providers** must have a Metering System installed that is compliant with the CM [Regulations](#) and [Rules](#). Capacity Providers will need to be able to demonstrate this through the metering assurance process.

EMR Settlement, [Electricity Settlements Company](#) and the EMR Delivery Body at [National Grid](#), are hosting an hour-long webinar on **21 February 2017 at 12:00** to help Capacity Providers in their preparation for this process.

The webinar will introduce Capacity Providers to the metering assurance process - **metering assessments, metering statements and metering tests** - and the associated timelines. It will focus on common problems that have been previously encountered.

[Register for this webinar.](#)
