## Webinar: A focused session on the Volume Reallocation Process

[Electricity Settlements Company](#) (ESC) and EMR Settlement Limited (EMRS) are hosting a webinar on **Wednesday 8 November 2017 at 11:00** to explain the volume reallocation process detailed within [WP48-Volume Reallocation](#).

Volume reallocation is a form of Secondary Trading available after a System Stress Event which can be used to mitigate the amount of penalties. **Capacity Providers** active in the 2017/18 Delivery Year may wish to understand the volume reallocation process further.

This session is aimed at both:

- **Capacity Providers** who were awarded a Capacity Agreement at Auction.
- **Capacity Market Volume Reallocation (CMVR) Registered Participants** who were not awarded a Capacity Agreement at Auction but have or intend to register with the Delivery Body to participate in volume reallocation.

Through this webinar you will get a better understanding of:

- What is volume reallocation?
- Who can participate in volume reallocation?
- How do I identify a CMU that I can participate in volume reallocation?
- How to complete Capacity Market Volume Reallocation Notification (CMVRN)?
- Timeline associated to volume reallocation

The webinar will also provide an opportunity for Capacity Providers to ask questions.

[Register for this webinar](#).

### Where can I get more information?

If you have any questions, please email [contact@emrsettlement.co.uk](mailto:contact@emrsettlement.co.uk) or call us on 020 7380 4333.
