

CIRCULAR

TYPE & NUMBER EMR Circular 210

Date 13 May 2020

Purpose For information

Stress Event Improvement Programme for 2020 - Metered Data Report implemented on the EMRS Portal

EMRS, on behalf of [Electricity Settlements Company](#) (ESC) would like to inform **Capacity Providers** that we have successfully implemented the new Metered Data Report now available on the [EMRS Portal](#).

The new Metered Data Report contains the metered volumes provided to EMRS for each settlement date in the Delivery Year. Capacity Providers will be able to confirm if their data flows have been received and have visibility of the metered volumes submitted. This gives Capacity Providers an indication of the metered volumes to be used in the Stress Event calculations if required. This change forms part of the system improvements for the Stress Event programme of activities for this year.

[EMRC209](#) provides full details about the new Metered Data Report.

Where on the EMRS Portal will the Metered Data Report be located?

On the [EMRS Portal](#), within the Settlement File Downloads section an additional tab has been created for Capacity Providers to select to locate the **Metered Data Report**.

What are the associated documents to be updated for this change?

The associated EMRS documents have been updated as a result of this change:

- WP195 – CM CFD Metered Data
- G17 – Capacity Provider Payments Frequently Asked Questions
- G19 – EMRS Web Portal User Guide

These documents have been published on the [Working Practice](#) and [Guidance](#) webpages.

Can you still request metered data via the EMRS Service Desk?

If the EMRS Portal is unavailable or Capacity Providers experience access issues they will be able to request metered data via the Service Desk as per the current process. Please email the [Service Desk](#) with the required information:

- EMR Party ID
- CMU ID
- Settlement Dates

EMRS will endeavour to respond within five working days of your request.
