3. Introduction

Under the Capacity Market (CM), Suppliers are obligated to provide Credit Cover to mitigate the risk of non-payment of charges to the Capacity Providers during a Delivery Year. The amount of Credit Cover is set at 110% of the monthly Capacity Market Supplier Charge (to allow for non-payment of the monthly charge, mutualisation and reconciliation payments and late payment interest accrued).

3.1 Scope and Purpose

The purpose of this document is to provide details of how Suppliers can lodge Credit Cover and request its return. It also provides information of EMR Settlement Ltd.'s (EMRS) role in recording and monitoring Credit Cover received and details of how and when Credit Cover will be used.

3.2 Main Users of this Document and Responsibilities

Role	Responsibilities
Supplier	Responsible for ensuring they provide and maintain valid Credit Cover to EMRS.
Electricity Settlements Company (ESC)	Responsible for the validation and authorising draw down of Credit Cover, specifying the Letter of Credit (LoC) and banking requirements.
EMR Settlement Ltd (EMRS)	Responsible for receiving, managing and monitoring Supplier Credit Cover.

3.3 Associated Documents

This working practice should be read in conjunction with the following documents, but please note that it does not seek to replace them:

4. Supplier Capacity Market Credit Cover

4.1 Credit Cover Requirements

Suppliers are responsible for ensuring Credit Cover is provided for each month of a Delivery Year, in the correct format and for the required amount or greater. The minimum amount of Credit Cover required is 110% of the monthly Capacity Market Supplier Charge.

EMRS will calculate the monthly amounts required, using the forecast of demand³ provided by Suppliers and will issue a schedule to each Supplier. The amounts will be revised once actual metered data for the winter period of high demand is received (for the requirements relating to months May – September).

4.2 Credit Cover validity

Credit Cover can be accepted as either cash or Letter of Credit (LoC). Cash needs to be deposited in a bank specified by ESC (for ease of reference it is included in section 4.1).

For LoCs, these must:

- Be in a valid format
- Have Electricity Settlements Company as the beneficiary
- Be issued via SWIFT to ESC's agent
- Be issued by a qualifying bank:
 - A bank with a long term debt rating of either;
 - A- or better, by Standard and Poor's⁴
 - A3 or better, by Moody's⁵
 - A bank approved by ESC
- Not yet be expired.

4.3 Monitoring Credit Cover

EMRS (on behalf of ESC) are responsible for monitoring receipt and validity of the lodged Credit Cover; EMRS advises Suppliers of the status of the Credit Cover, managing non-payment of charges and maintaining the Credit Cover Default Register.

4.4 Credit Cover draw down

Credit Cover can be drawn down if a Supplier fails to meet its obligations to provide the funding to ensure Capacity Providers can receive their payments. Draw down can be used for non-payment of monthly Supplier charges, mutualisation, reconciliation payments and interest owed, but excludes the Settlement Cost Levy. Draw down can also occur if the bank ratings on a Letter of Credit have decreased below the specified level or there is less than 10WDs remaining until the LoC is due to expire.

Where Credit Cover cannot be drawn down, alternative escalating actions will be taken to encourage Suppliers to meet their obligations.

4.5 Lodging Credit Cover
